Video Resume API

Contents

Upload a video file

Description:

Uploads a video file for a user's profile

URL: `POST https://api.videoresume.com/profile/video`

Headers

Header Name	Description	Required	Values
Bearer	Access token	Required	See Authorization section
Content-Type	The format of the video file to upload	Optional	video/mp4 or video/mov. Default is video/mp4.
Accept	The format of the returned data	Optional	application/xml or application/json. Default is application/json.

POST or PUT Body

The video files.

Note: The video file must be 5 minutes or shorter.

Sample Request

```
POST https://api.videodate.com/profile/video

        Bearer: {access token}
        Content-Type: video/mp4
        Accept: application/json

{video file}
```

Response

Element	Description	Type	Notes
id	The ID of the new video file	integer	
length	The length of the video file	float	Length is in seconds.

Sample Response

```
{
        "id": 3543,
        "length": 19.8
}
```

Retrieve a list of video files

Description:

Retrieves a list of profile video file URLs and their lengths for the specified user.

URL: GET `https://api.videoresume.com/user/{user id}/profile/video` where {user id} is the ID of the user whose profile contains the video files.

Query Parameters

Parameter	Description	Type	Required	Notes
sortOrder	The order to return the video file information.	string	Optional	Valid values: mostRecent, earliest, shortest, longest. Default is mostRecent.

Note:
- mostRecent returns the most recent video files to the earliest.
- earliest returns the earliest video files to the most recent.
- shortest returns the shortest video files to longest.
- longest returns the longest video files to the shortest.

Headers
